Proposals

FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of
Universal History Americanised:
Or, an historical view of Europe, Asia, Africa and America, from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.
BY DAVID RAMSAY, M. D.
Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence.
Sir William Jones.
PROSPECTUS.
The Asiatic part of this work contains

a general view of the antediluvian—the general deluge—the re-settlement of the Globe after that great event—the primitive postdiluvian nations which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.
The African part, contains a concise history of Egypt, Carthage, Nubidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.
The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.
The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.
It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for \$5 1-3 per volume, in sheep binding, or \$4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.
This work has been in contemplation upwards of 40 years. The project of it was conceived in 1796, on reading the Universal History, then recently edited in 60 volumes by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers—who, in the course of the last half century have explored almost every region of the Globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.
The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters, have been added by the Reverend SAMUEL STANFORD SMITH, which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex: to them its success is a matter of deep importance.

SATURDAY, APRIL 25, 1818.

From the Boston Daily Adv. March 31.

We have been permitted to publish the following letter addressed to a gentleman in this town, together with several others from the same venerable gentleman which will serve to throw some light upon a very important period of our history. We are gratified with an opportunity of bringing forward in so authentic and interesting a form, a number of anecdotes respecting some of our most distinguished men, which are only known to a few witnesses now living, and the memory of which, if not soon made public, must in a few years be forever lost.

Quincy, March 29, 1817.

Dear Sir—Is your daughter, Mrs. _____, who, I am credibly informed, is one of the most accomplished ladies, a painter? Are you acquainted with Miss _____, who I am also credibly informed is one of the most accomplished ladies, and a painter? Do you know Mr. Sargent? Do you correspond with your old companion in arms, Col. John Trumbull? Do you think Fisher will be an historical painter?

Whenever you shall find a painter, male or female, I pray you to suggest a scene and subject.

The scene is the Council Chamber of the Old Town House in Boston. The date is the month of February, 1761, nine years before you came to me in Cole lane. As this is five years before you entered College, you must have been in the second form of Master Lovell's school.

That Council Chamber was as respectable an apartment, and more so too, in proportion, than the House of Lords or House of Commons in Great Britain, or that in Philadelphia in which the Declaration of Independence was signed in 1776.

In this Chamber near the fire, were seated five Judges, with Lieutenant Governor Hutchinson at their head, as Chief Justice; all in their new fresh robes of scarlet English cloth, in their broad bands, and immense judicial wigs. In this Chamber was seated at a long table all the Barristers of Boston, and its neighboring County of Middlesex, in their gowns, bands, and wig-wigs. They were not seated on ivory chairs; but their dress was more solemn and more pompous than that of the Roman Senate, when the Gauls broke in upon them. In a corner of the room must be placed Wit, Sense, Imagination, Genius, Pathos, Reason, Prudence, Eloquence, Learning, Science, and immense Reading, hung by the shoulders on two crutches, covered with a cloth great coat, in the person of Mr. Pratt, who had been solicited on both sides, but would engage on neither, being about to leave Boston forever, as Chief Justice of New York.

Two portraits, at more than full length, of King Charles the Second and King James the Second, in splendid golden frames, were hung up in the most conspicuous side of the apartment. If my young eyes or old memory have not deceived me, these were the finest pictures I have seen. The colours of their long flowing robes and their royal ermines were the most glowing, the figures the most noble and graceful, the features the most distinct and characteristic: far superior to those of the King and Queen of France in the Senate Chamber of Congress. I believe they were Vandikes. Sure I am there was no painter in England capable of them at that time. They had been sent over without frames, in Governor Pownall's time. But as he was no admirer of Charles or James, they were stowed away in a garret among rubbish, till Governor Bernard came, had them cleaned, superbly framed, and placed in Council for the admiration and imitation of all men, no doubt with the concurrence of Hutchinson and all the Junto; for there has always been a Junto. One circumstance more: Samuel Quincy and John Adams had been admitted Barristers at that term. John was the youngest. He should be painted, looking like a short thick fat Archbishop of Canterbury, seated at the table, with a pen in his hand, but in admiration, now and then muttering those despicable notes, which you know that _____ stole from my desk, and printed in the Massachusetts Spy, with two or three bombastic expressions interpolated by himself; and which your pupil, Judge M'out, has printed in his History.

You have now the stage and the scenery. Next follows a narration of the subject. I rather think that we lawyers ought to call it a brief of the cause.

When the British ministry received from General Amherst his despatches, announcing his conquest of Montreal and the consequent annihilation of the French government and power in America, in 1759, they immediately conceived the design and took the resolution of conquering the English colonies, and subjecting them to the unlimited authority of parliament. With this view and intention, they sent orders and instructions to the collector of the customs in Boston, Mr. Charles Paxton, to apply to the civil authority for writs of assistance, to enable the custom-house officers, tide waiters, land waiters, and all, to command all sheriffs and constables to attend and aid them in breaking open houses, stores, shops, cellars, ships, bales, trunks, casks, packages of all sorts, to search for goods, wares and merchandizes, which had been imported as against the prohibitions, or without paying the taxes imposed by certain Acts of Parliament, called "THE ACTS OF TRADE," &c. by certain Parliamentary Statutes, which had been procured to be passed from time to time, for a century before, by a combination of selfish intrigues between West-India Planters and North American Royal Governors. These acts never had been executed, and there never had been a time when they would have been, or could have been obeyed.

Mr. Paxton, no doubt consulting with Governor Bernard, Lieut. Gov. Hutchinson, and all the principal crown officers, and all the rest of the Junto, thought it not prudent to commence his operations in Boston. For obvious reasons, he instructed his deputy collector in Salem, Mr. Cockle, to apply by petition to the superior court, in Nov. 1760, then sitting in that town, for writs of assistance. Stephen Sewell was then chief justice of that court, an able man, an uncorrupted American, a sound whig, a sincere friend of liberty, civil and religious. He expressed great doubts of the legality of such a writ, and of the authority of the court to grant it. Not one of his brother judges uttered a word in favor of it; but as it was an application on the part of the crown it must be heard and determined. After consultation, the court ordered the question to be argued at the next February term, in Boston, i. e. in 1761.

In the mean time chief justice Sewell was appointed chief justice of that court in his stead. Every observing and thinking man knew that this appointment was made for the direct purpose of deciding this question, in favor of the crown, and all others in which it should be interested. An alarm was spread far and wide. Merchants of Salem and Boston applied to Mr. Pratt, who refused, and to Mr. Otis and Mr. Thatcher, who accepted, to defend them against this terrible menacing monster, the writ of assistance. Great fees were offered, but Otis, and I believe Thatcher, would accept of none. "In such a cause," said Otis, "I despise all fees."

I have given you a sketch of the stage and the scenery, and a brief of the cause—or, if you like the phrase better, of the Tragedy, Comedy or Farce.

Now for the actors and performers. Mr. Gridley argued with his characteristic learning, ingenuity and dignity, and said every thing that could be said in favor of Cockle's petition, all depending, however, on the "If the parliament of Great Britain is the sovereign legislator of all the British Empire."

Mr. Thatcher followed him on the other side, and argued with the softness of manners, the ingenuity, the cool reasoning which were peculiar to his amiable character.

But Otis was a flame of fire! With a promptitude of classical allusions; a depth of research, a rapid summary of historical events and dates, a profusion of legal authorities, a prophetic glare of his eyes into futurity, and a rapid torrent of impetuous eloquence he hurried away all before him. American Independence was then and there born. The seeds of Patriots and Heroes to defend the Non Sine Diis Animosus Infans; to defend the vigorous youth were then and there sown. Every man of an immense crowded audience appeared to me to go away as I did, ready to take arms against writs of Assistance. Then and there was the first scene of the first act of opposition to the arbitrary claims of Great Britain. Then and there the child Independence was born. In fifteen years, i. e. in 1776, he grew up to Manhood and declares himself free.

The court adjourned for consideration, and after some days at the close of the term, Hutchinson, chief justice, arose and said, "The court has considered the subject of Writs of Assistance, and can see no foundation for such a writ; but as the practice in England is to continue the question to next term, that in the mean time opportunity may be given to write to England for information concerning the subject." In six months the next term arrived; but no judgment was pronounced; nothing was said about writs of assistance; no letters from England and nothing more was said in court concerning them. But it was generally reported and understood that the court clandestinely granted them; and the custom-house officers had them in their pockets; though I never knew that they dared to produce and execute them in any one instance.

Mr. Otis's popularity was without any bounds. In May 1761 he was elected into the house of representatives, by an almost unanimous vote. On that week I happened to be at Worcester attending a court of common pleas, of which, Brigadier Ruggles was chief justice. When the news arrived from Boston, you can have no idea of the consternation among the government people. Chief Justice Ruggles at dinner at Col. Chandler's on

that day, said, "Out of this election will arise a damn'd faction, which will shake this province to its foundation." For ten years afterwards Mr. Otis at the head of his country's cause conducted the town of Boston and the people of the province with a prudence and fortitude, at every sacrifice of personal interest, and amidst unceasing persecution, which would have done honor to the most virtuous patriot or martyr of antiquity. I fear I shall make you repent of bringing out the old gentleman.

GRAIN IN FRANCE.

It will be recollected that by the decree of the king, allowing a bounty on grain and flour imported into France, that three months notice would be given previous to the cessation of said bounty, which notice was given by a new decree, on the 19th or 20th of February, declaring that the bounty would cease on the 20th of May next.

In this day's Gazette, we gave the price of cotton incorrectly—uplands in France were 55 to 56 sous—New Orleans 57.

FROM FRANCE.

The following is an extract of a letter received per brig Doris, from a gentleman of respectability in Bordeaux, to another in Savannah, dated

Bordeaux, Feb. 9.

I learn from a gentleman, whose word can be depended on, that the treaty is concluded between France and the allied powers, and that their troops will evacuate the kingdom in the course of the summer.

Markets at Nassau.—Flour 15 a \$16; pork 35; lard 49 a 50 cents; butter 26 a 28 cents.

MEXICAN PROVINCES.

By the brig White Oak we have received New-Orleans papers of the 1st instant. Besides the marine articles which we have copied from them in this day's paper, the Louisiana Gazette gives a curious rumor as to designs being on foot against the Spanish provinces beyond the Sabine. It is said the French exiles in the United States have formed a plan to take the province of Texas; that a subscription had been raised to defray the incidental expenses; that Stephen Girard had subscribed 50,000 dollars. Joseph Bonaparte, marshal Grouchy, &c. had contributed largely. The real object is supposed to be, to raise a throne for Joseph Bonaparte.

From the N. Y. Mer. Adv. April 21.

By the brig White Oak we received last evening the Louisiana Gazette of the 21st March and 1st instant, from which the following articles are copied: Natchez, March 26.

Extract of a letter from Dr. John Sibley to Dr. John H. Robinson of this city, dated Natchitoches, March 16.

"Some persons have just arrived here from Galvestown, and report an extraordinary assemblage of French gentlemen being there with a large quantity of warlike stores, as well as farming tools. Near 3000 more were expected there by the present period. They came principally from Philadelphia—all their packages were marked Mobile. Generals Lallemand and Rigaud are amongst them. They cautiously avoid offending our government. The views of these people are not understood, but it is conjectured that they are going to some place beyond the river Grand, (perhaps Tampico) to possess and occupy a country to become an asylum for discontented Europeans. The armed vessels our government ordered to that place had not appeared the middle of last month. Before the arrival of these Frenchmen, the place was occupied by Lafitte the younger, and his party, who had brought in some prizes of great value, particularly the Spanish ship Campeach, of 450 tons, with a cargo worth 500,000 dollars.

"I expect to hear again from Galvestown, and will communicate to you the intelligence I may receive. Some valuable silver ore has lately been sent in by some Indian traders, who found it beyond the Colorado."

New Orleans, April 1.

Rumor has been for some time busy in this city with the designs now on foot against the Spanish provinces beyond the Sabine. It is currently reported that the French exiles in the United States

formed a plan some time since for taking possession of the province of Texas, with perhaps the adjoining country called Provincias Internas.

A subscription was raised amongst the most wealthy to defray the incidental expenses. Mr. Girard is said to have subscribed 50,000 dollars, and Joseph Bonaparte, marshal Grouchy, &c. are also believed to have contributed largely. Some have gone so far as to assert that the leaders notified the Spanish minister at Washington of their intention to colonize the above province, where they were willing to acknowledge the supremacy of old Spain in case she allowed them to remain undisturbed.

We should have treated all this as idle rumor had not the above letter from Natchitoches set the matter beyond all question.

MILITARY APPOINTMENTS.

The following appointments have been made by the President, with the consent of the Senate, under the act just passed, for reducing the Staff of the Army:

Brigadier General William Canning, Quarter-Master General.

Colonel George Gibson, Commissary General.

Joseph Lovell, Surgeon General.

Tobias Watkins and J. C. Bronaugh, Assistant Surgeons General.

The other Hospital Surgeons and

Mates are made post Surgeons.

S. A. Sturrow and R. H. Winder, Judge Advocates, and Dr. Cave Jones, Chaplain and professor at the military Academy.

BANK OF THE UNITED STATES.

A situation for erecting a building for transacting the business of this institution, has at length been fixed upon and actually purchased. It consists of those handsome lots commencing with Mr. Joseph P. Norris's property, on the South side of Chestnut-street, extending Easterly and including Mr. Edward Thomas's House, and Southerly to Library-street.

This beautiful and spacious plat, we understand, has been purchased at about an average of 1000 dollars per foot front.

[Philadelphia Gazette.]

From the N. Y. Daily Advertiser.

In the time of the federal administration of the national government, the expenses of the diplomatic department of our affairs, was a subject of loud and frequent complaint of those who were then struggling to place themselves in power and place. If it were not for the fear that it might give somebody too much trouble, we should be gratified if a comparison might be drawn between the expenses under Gen. Washington and Mr. Adams, in this branch of foreign intercourse, and those which have been incurred since that period. Embassies have been multiplied in more modern times to a great extent. But this is not the whole of the evil, if evil it be. It has become quite fashionable for gentlemen to receive appointments to missions abroad, accept them, go abroad just along enough to gratify their curiosity, or their vanity, and then resign, return home, and make way for new appointment. This course of proceeding necessarily increases the expenses of foreign negotiation to a great degree, because every new minister receives an outfit, as it is called, that is a given sum, which is equal to a year's salary, in addition to his annual compensation. Thus, to mention a recent case, Mr. Pinckney, who was sent to Naples and Russia but a short time since, has obtained leave to return, and Mr. George W. Campbell is appointed in his place. As ambassador to St. Petersburg, he must have received nine thousand dollars outfit, and nine thousand salary, making eighteen thousand dollars the first year. He was also appointed on a mission to Naples, on a sleeveless errand, to which place he went in the first place. If he was rewarded for that excursion also as has been customary, he would receive an outfit and a year's salary for that as well as the Russian mission. If this is the fact, he will have made a profitable job of it for the short time he has been absent. That circumstance, together with the pleasure of visiting so charming a country as Italy, and the honor of being his country's representative at the Imperial court, must probably have conducted much to the gratification of an ambitious republican citizen.

Since the country is forced to pay so much money for this object, it is to be regretted that it should have in return so little benefit. We can scarcely imagine that the President expected anything beneficial to the United States from the Neapolitan mission. But, it was understood that Mr. Pinckney refused going to Russia unless he could take Naples in his way, and the Senate were brought to his terms. Now he has become satisfied with Russia, and is coming home; and another gentleman is appointed in his room, who must also have his outfit and salary, and perhaps may become satiated with the honor at the year's end, as well as his predecessor. Let this be as it may—of one thing we are confident—if there is any thing important, either political or commercial, in the relations of this country with Russia, those relations will stand a chance of not being much benefited in the new ambassador's hands. We can scarcely be persuaded, that a Tennessee lawyer, of moderate capacity, can be an able commercial negotiator. Mr. Campbell's short-lived tour at the head of the Treasury Department, furnishes no evidence of his competency for his new birth. If, as the expenses of foreign negotiation increase, the talents of the negotiators decrease, we are in a fair way of laying out a good deal of money to very little purpose.

French Creek Boarding School.

The following is published for the information of Parents:

HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL FOR GIRLS. With this view I have purchased the FARMER CREEK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pike-land and Vincent townships, Chester county, twenty seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their age, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that some may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter. The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Stabler, Alexandria, or to

Fan-Sash Making.

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.

Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

LEE'S MEDICINE STORE,

No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:

Hamilton's Worm-destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or gripping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Terebr or large round worm; the Ascarides or small saw-worm; the Coccarbitine or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large acid hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm-destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting, and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of

BILIOUS AND MALIGNANT FEVERS

is recommended

HAIN'S ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual constiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthma, sore throats, catarrhs, and approaching consumptions. To persons who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders, Violent cramps in Consumptions, the stomach and back, Loss of spirits, Indigestion, Loss of appetite, Impurity of blood, Melancholy, Hysterical affection, Gout in the stomach, Inward weakness, Pains in the limbs, and debility, Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Rich.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily removing their root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
